

# Egg Albumen Powder High Gel

Application	Suitable for the confectionery, bakery and meat industry.		
Functionality	The advantage of this product is especially the good gelling and water binding abilities.		
Product Description	De-sugared, spray dried and pasteurised egg white. 100 g of powder dissolved in 700 g of water corresponds to 800 g of fresh egg white (approx. 25 eggs). It is recommendable to leave the solution to stand a while before use in order to absorb all the water.		
Ingredients	Egg white powder		
Storage	Dry and dark		
Shelf life	At 2 °C: Minimum 24 months in an unopened package At 20 °C: Minimum 12 months in an unopened package		
Packaging	Blue polybag in carton box paper bag, 20 kg net.		
Production date	Included in the batch number, as the first 3 digits is the day-number, and the fourth indicates the year.		
		Typical values	Guaranteed values
Statistical	pH-value	6,0-8,0	6,0-8,0
	Moisture	5-8%	3-8%
	Gel strength	>500-650 g/cm <sup>2</sup>	>500-650 g/cm <sup>2</sup>
